RE: WEBINAR TRAINING ON DATA PROTECTION

The Data Protection Act was operationalized as from 25th November 2019 in Kenya. Some of the Act's objectives include the regulation of the processing of personal data, provision of the rights of data subjects as well as the obligations of data controllers and processors. Insurance companies collect, retain and process personal data from their customer's meaning that the data collected falls under the ambit of the Act. The secretariat is planning to hold a webinar on data protection to train members on how to comply with the Act. The training will equip members with practical knowledge regarding the processing personal data and compliance with the Act.

The training targets staff who obtain or process personal data and deal with compliance. It is therefore suitable for individuals in underwriting, claims, risk officers, Information technology (IT) and Legal practitioners. The training will take place on **Friday 5th March 2021 from 9am to 11:30 am**. Please note that the training will be free

Kindly let us have names of your nominees by Friday 26th February 2021, the names of the nominees and any queries regarding the training should be directed to lynn.obwanda@akinsure.com and brettah.muthuri@akinsure.com
